Development Projects

UVA Scheduler

- Tool designed for helping students navigate the complex scheduling environment
- Using multiple data sources to present users with calendars and charts representing input
- Utilizes Python, Node.js and several libraries, and MongoDB, oversaw group of interns at DevHub

ImageDirWalk

- Software designed as part of project to migrate images from local machines to cloud storage
- Tags images based on Google's Cloud Vision API and performs certain formatting during upload
- Utilizes Python, Bash, and Google Cloud Platform

Work Experience

Frank Batten School of Leadership and Public Policy Charlottesville, VA

September 2017 - Present

IT Support and Student Developer

- Work with students and faculty to resolve problems through in-person support
- Communicate with guest presenters to prepare and monitor presentations
- Develop and integrate software solutions to problems presented by faculty

University of Virginia DevHub Charlottesville, VA

June 2019 - Present

Student Developer and Team Leader

- Oversee and mentor groups of student interns through development of web apps
- Help develop tools and projects for both students and faculty as a consultant
- Maintain and improve previously developed tools for university-wide use

University of Virginia School of Engineering Charlottesville, VA

Summer 2019

CS 4102: Algorithms Lead Teacher's Assistant

- Led students through problems towards success with individual instruction
- Prepared and organized assignments and assignment schedules
- Assess student performance and communicate results to faculty

Certifications and Awards

UVA Engineering Dean's List

Fall 2018 - Spring 2019

MetaCTF Cybersecurity and Legal Challenge Charlottesville, VA

October 2018

Leader of top-scoring University of Virginia team

CompTIA Network+

June 2016 - June 2019

Industry certification for network technicians

Activities

International Residential College Council

Fall 2018 - Present

Sustainability Committee

- Organize, participate in, and develop community events that focus on sustainability
- Prepare and monitor communications related to the committee to population of more than 300

Engineering Student Council

Fall 2018 - Spring 2019

Member of Communications Committee

- Organizing communications to the Engineering School student body
- Developing a historical record of Engineering School activities
